GOLF

DYE FORE

Let's talk numbers: 27 holes; 7,740 yards long; 7 cliff-side holes dropping 300 feet to the Chavón River below; and breathtaking 360 views. By our calculations Pete Dye's masterpiece, Dye Fore, has a winning formula. Characterized by spectacular views of the Dominican mountains, the Chavón River, the Marina, and Altos de Chavón, this challenging cliff-side course is a delight for players of all levels.

Now some more numbers for you: 12 and 15—two of the greatest par three holes in the world; 5 the amount of holes on the Lagos course with lakes in play; and 1 the number of strokes it takes to get started on the round of a lifetime.

GOLF

THE LINKS

Reminiscent of traditional links courses typically found in the British Isles, these 18 holes wind through the interior of Casa de Campo and offer spectacular views of the Caribbean Sea and the Resort grounds. And even though The Links course might not be right beside the ocean, there's still plenty of opportunity to go to the beach—no less than five holes feature water hazards. Rolling hills and ocean views offer an unique and fun golf experience.

Another Pete Dye creation, The Links was completely overhauled in 2012 to make it every bit as challenging as the other courses at Casa de Campo.
